

Test Summary Report

Project Name: OrangeHRM Web Application

Tested By: Team 5

Report Date: April 11, 2025

Test Period: April 5, 2025 – May 8, 2025

1. Objective

To validate the functionality, UI, and usability of the OrangeHRM application and ensure the core HR processes work as expected, including login, logout, employee records, employee management, leave requests, approve leave requests, payroll and performance.

2. Scope

In-Scope Modules:

- Login Functionality
- Logout Functionality
- Employee Management
- Employee Records
- Performance
- Leave Requests
- Approve Leave Requests
- Payroll

3. Test Summary

ITEM	COUNT
Planned TCs	53
Executed TCs	53
Passed TCs	42
Failed TCs	11
Test Coverage	100%
Bugs count	11
Resolved bugs	0
Unresolved bugs	11
Bug Coverage	0%
Browsers	BRAVE, CHROME
OSs	WINDOWS

4. Test Coverage

Testing covered functional, UI, and boundary scenarios across the selected modules. Positive and negative test cases were executed for each form and workflow.

5. Defect Summary

Severity	Count
Critical	6
Major	4
Minor	1

6. Conclusion

The OrangeHRM application is functionally stable for the tested modules. All critical business flows passed. The application is ready for release once the remaining critical issues is resolved.
